SCHOOL CODE OF CONDUCT

Revised May 2020

Student Code of Conduct - Safe and Caring Schools

At Sister Alphonse Academy our mission is to build a safe and caring culture through the example of Jesus Christ. It is based upon the belief that every member of our school community will foster dignity, respect and service through their actions, and that every individual is entitled to be treated with dignity and respect. Core values are responsibility and reconciliation. An attempt will always be made to implement logical consequences and restorative justice practices that encourage and maintain the God given dignity of every student. Teachers use effective teaching strategies and classroom management skills to minimize off task behaviour. Where required teachers and/or administration will notify parents and implement strategies to address concerns or inappropriate behaviors. A school-wide approach to positive behavior supports effectively promotes a safe, orderly and predictable environment for learning and teaching.

The school will establish a culture of respect for the God given dignity of all who participate within it and pursue the common good of everyone, as we build a community of faith, hope, and love through the example of Jesus Christ.

Supporting Positive Behaviour at Sister Alphonse Academy

A school-wide approach to **positive behavior supports** effectively promotes a **safe, orderly and predictable** environment for learning and teaching. This approach has significant effects within the school community: it creates a positive school culture that students, parents and staff perceive as safe and caring.

SAA **Positive Behavior Supports** focus on a **school-wide** set of behavior expectations that is corrective, not punitive in which positive dialogue is key. Our students will be encouraged to be safe, respectful and responsible at all times.

Research identifies ten key elements of universal school-wide behavior support systems. These elements are interrelated and overlapping, and may have differing degrees of importance, depending on the needs, strengths and priorities of a particular school community.

Positive relationships: valuing each individual's contribution to the school community, promoting a sense of belonging for all students and staff, and promoting positive relationships among home and school and community

Modification of the school environment: ensuring that the physical environment and school routines are organized proactively to support positive behavior and reduce problem behavior

Differentiated instruction: responding to student diversity and creating opportunities for all students to learn in a way that responds to their varying abilities, strengths, learning preferences, interests and needs

School-wide behavioral expectations: clearly articulating expectations and having all staff consistently reinforce expectations in all areas of the school throughout the school day

Social skills instruction that demonstrates and supports the school-wide behavioral expectations

Positive reinforcement of individual students and groups who consistently demonstrate positive behavior

Fair and predictable consequences for negative behavior that adversely affects others and the school community

Collaborative leadership: committing to building and maintaining a positive school culture, and providing the resources necessary for developing positive behavior supports for all students

Data-driven decision making: clearly identifying the strengths and needs of the school community, identifying areas where improvement is needed and measuring behavior change over time

Action plan for school change: developing, implementing and monitoring a school-wide approach to positive behavior supports

GSACRD schools have adopted a pyramid of support framework for Supporting Positive Behavior and pursuing excellence in learning in all students. The pyramid has three levels of support. The first level is **UNIVERSAL SUPPORTS** for all students in the school and in a classroom. The second level is **TARGETED SUPPORTS** where some students who require extra support to build the skills they need. The third level is **INTENSIVE INDIVIDUALIZED SUPPORTS** for students who require very specialized supports.

Supporting Positive Behavior

Universal Supports

May include differentiated instruction, positive reinforcement, fair and predictable consequences, celebration of student achievement, on-going praise, open door counseling, teams, clubs, Zones of Regulation, etc. École Notre Dame School has established three positively stated expectations for all students: Be Safe... Be Responsible...Be Respectful...

Staff Roles at the Universal Level:

The school will teach, model and reinforce safe and caring behaviour. School staff members will praise students for their contributions to creating a safe and caring environment. Teachers will have on-going assessment and positive communication with parents.

Parent Roles at the Universal Level:

The parent is the primary teacher of the student. Success of the student will increase when the parent is actively teaching, modeling and reinforcing safe and caring behaviour. Parents are encouraged to stay informed with the classroom teacher and praise the student for his/her contributions to creating a safe and caring environment at home or school. On-going positive communication or regular monitoring of student achievement by the parent will support the child and lead to higher academic success.

Desired Outcome:

With universal supports in place, most students understand and comply with school rules and expectations most of the time. Minor incidents may occur and the student learns from the experience. No further support is required.

Targeted Supports

Targeted supports are added when the student is having difficulty with understanding and complying with school rules and expectations. There is a noted decrease in ability to follow expectations. As with Universal Supports, the focus is on teaching the student positive behaviours and problem-solving strategies. Targeted supports include universal supports and targeted supports such as: small group instruction of positive social skills, check in check out, staff mentor, Rotary Mentorship Program, counseling, accommodation checklist, self-monitoring of behaviour, individual reinforcement systems, tracking, reward system, consultation with division supports for positive behaviour.

Staff Roles at the Targeted Level:

School staff members document incidents and communicate the increase in non-compliance to parents. Staff members work together with the family to support the child to demonstrate safe and caring behaviour. Staff members continue on-going communication and reinforcement of desired behaviour.

Parent Roles at the Targeted Level:

Parents work together with the school to support the child to demonstrate safe and caring behaviour. Parents are encouraged to have on-going communication with the school staff members so the desired behaviour is reinforced both at school and at home with consistency.

Desired Outcome:

When the child can demonstrate safe and caring behaviour, the supports may decrease. However, some children will always require this level of support. The school and parents continue to teach, model and reinforce safe and caring behaviour. School staff and parents praise the student for his/her contributions to creating a safe and caring environment.

Intensive Individualized Supports

The student continues to have difficulty with understanding and complying with the school rules and expectations even with the targeted and universal supports. The student contributes to an environment that is not safe and caring. Intensive supports include universal supports, targeted supports and intensive individualized supports such as: referral to outside agencies, individual counseling, Wrap Around, alternate programming, positive behaviour plans/ individual program plan, Safety Plan, Educational Assistant support, assessments, one on one support.

Staff Roles at the Intensive Level:

School staff members will meet with parents to discuss the present situation. Together, staff members and parents discuss possible solutions for the student. Staff members will continue on-going communication and reinforcement of desired behaviour.

Parent Roles at the Intensive Level:

Parents are encouraged to meet with school staff members to discuss the present situation. Together, staff members and parents discuss possible solutions for the student. Parents continue on-going communication with the school and reinforce desired behaviour.

Desired Outcome:

When the child can demonstrate safe and caring behaviour, the supports may decrease. However, some children will always require this level of support. The school and parents continue to teach, model and reinforce safe and caring behaviour. School staff and parents praise the student for his/her contributions to creating a safe and caring environment.
